

Environmental Management Policy

At Sutcliffe Construction, we believe that every job is worth doing and doing it well.

We believe that with our experience, resources, and talent we provide our customers with exceptional service and can and will reduce our impact on the environment.

Our environmental objectives, like all other objectives, should be SMART: Specific, Measurable, Achievable, Realistic and Timebound.

To reduce our environmental impact our objectives are:

Within 12 months reduce waste to landfill by 10%

Within 12 months recycle all office toners, wastepaper, cartridges & batteries

Directors and staff will meet our objectives by:

Giving honest answers

Sorting out problems quickly and making sure they don't occur again

Not making excuses

Complying with all legal, voluntary, and statutory requirements

Constantly reviewing and improving what we do

Looking after our staff and growing our own talent

Looking after our community and our commitment to protecting the environment, including prevention of pollution, and meeting other compliance obligation.

The owners, directors and all staff of Sutcliffe Construction are committed to establish, maintain, constantly review and continually improve our environmental management system and keep our promises to our customers, neighbours, staff and suppliers.

Copies of our policy are made available to all our customers, interested parties, sub-contractors, and members of staff.

James Sutcliffe
Managing Director
